Professional Summary

MERN Stack Developer with practical experience in React.js, Node.js, and MongoDB. Strong foundation in building responsive, state-driven web applications, implementing REST APIs, and managing application state using modern React patterns. Seeking an entry-level software development role to apply full-stack development skills in a collaborative environment.

Technical Skills

Languages: Java, Python, JavaScript (ES6+)

Frontend: HTML5, CSS3, React.js, React Hooks, Context API, useReducer, React Router, Bootstrap, Responsive Web Design

Backend: Node.js, Express.js, REST API Development

Database: MongoDB

Version Control: Git, GitHub

Tools: Vite, npm

Core Concepts: DBMS, Object-Oriented Programming (OOP), Operating Systems, Computer Networks

Other: Generative AI, LLM Concepts, AI Automation (n8n), Tokenization

Projects

Expense Tracker

React, Context API, useReducer, Recharts, localStorage

- Developed a responsive expense tracking application using React for personal finance management and transaction monitoring.
- Implemented centralized state management using Context API and useReducer to manage application data and user interactions.
- Integrated Recharts to visualize income and expense trends and localStorage to persist transaction data across sessions.

Quiz App

React, React Router, Context API, useReducer, Bootstrap, Vite

- Built a responsive 10-question React fundamentals quiz with a 15-second timer for each question.
- Managed quiz state, scoring, progress, player data, and reset functionality using Context API and useReducer.
- Implemented React Router, reusable components, automatic timeout progression, and a persistent top-50 leaderboard using localStorage.

Mini Projects: Shopping Cart, Movie Explorer, Todo List, Responsive Portfolio Website

Experience

Full Stack Intern – Neo Skillz

Ongoing

- Selected for a 4-month Full Stack Training and Internship Program focused on practical web development.
- Gaining hands-on experience in frontend and backend development, project implementation, REST APIs, and industry-oriented development practices.

AWS Skill Builder – IoT Cloud Engineer Internship

Virtual Internship

- Completed a virtual internship focused on IoT and cloud technologies using AWS.
- Gained practical knowledge of AWS IoT Core, MQTT communication, and cloud-based device management.

Certifications

- AWS Skill Builder – IoT Cloud Engineer Virtual Internship
- DMRC – Gained practical exposure to metro operations
- IBM – Data Visualization Using AI Tools

Education

Raj Kumar Goel Institute of Technology and Management

2022 – 2026

B.Tech in Information Technology — CGPA: 7.2/10

Saraswati Vidya Mandir (CBSE)

Class XII: 73.1% (2021–22) | *Class X* : 72.8%(2019 – 20)
