Career Objective

Aspiring MERN Stack Developer with practical experience in React.js, Node.js, and MongoDB. Strong foundation in building responsive, state-driven web applications and integrating REST APIs. Eager to apply full-stack development skills in a collaborative, growth-oriented environment.

Technical Skills

Languages: Java, Python, JavaScript (ES6+)

Frontend: HTML5, CSS3, React (Hooks, Context API, useReducer), Responsive Web Design

Backend: Node.js, Express.js (Learning), REST API Development

Database: MongoDB (Basic Working Knowledge)

Version Control: Git, GitHub

Core Concepts: DBMS, OOPs, Operating Systems, Computer Networks

Other: Generative AI & LLM Concepts, AI Automation (n8n), Tokenization

Soft Skills: Problem Solving, Team Collaboration, Agile Awareness

Projects

Expense Tracker

React, Context API, useReducer, Recharts, localStorage

- Developed a responsive expense tracking application using React to simplify personal finance management and expense monitoring.
- Implemented global state management with Context API and useReducer to efficiently manage application data and user interactions.
- Visualized income and expense trends using Recharts and integrated localStorage to persist transaction data across sessions, improving user retention across visits.

Quiz App

React, React Router, Context API, useReducer, Bootstrap, Vite

- Built a responsive 10-question React fundamentals quiz with a 15-second timer per question.
- Managed quiz state, scoring, progress, player data, and reset functionality using Context API and useReducer.
- Implemented routing, reusable quiz components, automatic timeout progression, and a persistent top-50 leaderboard using localStorage.

Mini Projects: Shopping Cart, Movie Explorer, Todo List, Responsive Portfolio Website

Experience

Full Stack Intern – Neo Skillz

Ongoing

- Selected for a 4-month Full Stack Training and Internship Program.
- Gaining hands-on experience with full-stack development, practical project work, and industry-oriented development practices through remote training and internship activities.

AWS Skill Builder – IoT Cloud Engineer Internship

Virtual Internship

- Completed a virtual internship focused on IoT and cloud technologies using AWS.
- Gained practical knowledge of AWS IoT Core, MQTT communication, and cloud-based device management.

Certifications

- DMRC – Gained practical exposure to metro operations
- IBM – Data Visualization Using AI Tools

Education

Raj Kumar Goel Institute of Technology and Management

2022 – 2026

B.Tech in Information Technology — CGPA: 7.2/10

Saraswati Vidya Mandir (CBSE)

Class XII: 73.1% (2021–22) | *Class X* : 72.8%(2019 – 20)
