Career Objective

Aspiring Full Stack Developer with hands-on experience in React, JavaScript, Python, and AI-powered applications. Passionate about building responsive web applications while expanding backend development skills.

Education

Raj Kumar Goel Institute of Technology and Management	2022–2026
B.Tech in Information Technology	CGPA: 7.2/10
Saraswati Vidya Mandir (CBSE)	Class XII: 73.1% (2021–22), Class X: 72.8% (2019–20)

Technical Skills

Languages: Java, Python, JavaScript
Frontend: HTML, CSS, React (Hooks, Context API, useReducer)
Backend: Node.js, Express.js (Learning)
Database: MongoDB (Basic Working Knowledge)
Tools: Git, GitHub, VS Code
Core: DBMS, OOPs, Operating Systems, Computer Networks
Other: Basic Knowledge of Generative AI, LLM Concepts, AI Automation (n8n), Tokenization

Projects

Expense Tracker	React, Context API, useReducer, Recharts, localStorage
- Developed a responsive expense tracking application using React to simplify personal finance management and expense monitoring. - Implemented global state management with Context API and <code>useReducer</code> to efficiently manage application data and user interactions. - Visualized income and expense trends using Recharts and integrated localStorage to persist transaction data across browser sessions.	
Quiz App – React Fundamentals	React, React Router, Context API, useReducer, Bootstrap, Vite
- Built a responsive 10-question React fundamentals quiz with a 15-second timer per question. - Managed quiz state, scoring, progress, player data, and reset functionality using Context API and <code>useReducer</code>. - Implemented routing, reusable quiz components, automatic timeout progression, result accuracy, and a persistent top-50 leaderboard using localStorage.	

Mini Projects: Responsive Portfolio Website, Pomodoro Timer, Password Generator, Analog Clock

Experience

Full Stack Intern – Neo Skillz	Ongoing
- Selected for a 4-month Full Stack Training and Internship Program. - Gaining hands-on experience with full-stack development, practical project work, and industry-oriented development practices through remote training and internship activities.	
SkillBuilder – Data Visualization Using AI Tools	21 Dec 2023 – 04 Jan 2024
- Completed training focused on Data Visualization Using AI Tools. - Strengthened data analysis, visualization, and presentation skills through hands-on activities.
