Career Objective

Aspiring Full Stack Developer with hands-on experience in React, JavaScript, Python, and AI-powered applications. Passionate about building responsive web applications while expanding backend development skills.

Education

Raj Kumar Goel Institute of Technology and Management

2022–2026

B.Tech in Information Technology

CGPA: 7.2/10

Saraswati Vidya Mandir (CBSE)

Class XII: 73.1% (2021–22), Class X: 72.8% (2019–20)

Technical Skills

Languages: Java, Python, JavaScript

Frontend: HTML, CSS, React (Hooks, Context API, useReducer)

Backend: Node.js, Express.js (Learning)

Database: MongoDB (Basic Working Knowledge)

Tools: Git, GitHub, VS Code

Core: DBMS, OOPs, Operating Systems, Computer Networks

Other: Basic Knowledge of Generative AI, LLM Concepts, AI Automation (n8n), Tokenization

Projects

Expense Tracker

React, Context API, useReducer, Recharts, localStorage

- Developed a responsive expense tracking application using React to simplify personal finance management and expense monitoring.
- Implemented global state management with Context API and `useReducer` to efficiently manage application data and user interactions.
- Visualized income and expense trends using Recharts and integrated localStorage to persist transaction data across browser sessions.

Quiz App – React Fundamentals

React, React Router, Context API, useReducer, Bootstrap, Vite

- Built a responsive 10-question React fundamentals quiz with a 15-second timer per question.
- Managed quiz state, scoring, progress, player data, and reset functionality using Context API and `useReducer`.
- Implemented routing, reusable quiz components, automatic timeout progression, result accuracy, and a persistent top-50 leaderboard using localStorage.

Mini Projects: Shopping cart , Movie explorer , Todo-list , Responsive Portfolio Website

Experience

Full Stack Intern – Neo Skillz

Ongoing

- Selected for a 4-month Full Stack Training and Internship Program.
- Gaining hands-on experience with full-stack development, practical project work, and industry-oriented development practices through remote training and internship activities.

SkillBuilder – Data Visualization Using AI Tools

21 Dec 2023 – 04 Jan 2024

- Completed training focused on Data Visualization Using AI Tools.
- Strengthened data analysis, visualization, and presentation skills through hands-on activities.
